

Pacific Island and Regional Nurses Update Day Wednesday 26th October & Thursday 27th October 2011

The Society of Paediatric Oncology (SIOP) is committed, through their annual congress, to providing education and support to developing countries. This Paediatric Oncology Programme for Pacific Island and Regional Nurses has been developed for nurses from the Pacific Islands of Fiji, Samoa and Tonga as part of the 2011 Congress. We would also like to invite nurses in shared care or regional roles who would like to further their understanding of basic oncology to participate in Day 2 of the programme.

The purpose of Programme is to:

- Welcome the nurses to Auckland,
- Provide an opportunity for support and networking through out the SIOP Congress
- Develop an understanding of childhood cancer and treatment (Day 2)
- Support practice development within the speciality (Day 2)
- Provide education that is relevant to the clinical experience of nursing in the Pacific Islands (Day 1).

A number of specialist nurses from New Zealand will be facilitating sessions through out the two day programme. Attendees will also be provided with course material.

Enrolment:

All Nurses wishing to enrol in the Pacific Island and Regional Nurse Update Days must have a full registration for SIOP. While there is no additional cost for the day, places are limited. To register for the day email siop2011@tcc.co.nz and state it is the PI and regional update day you wish to attend; for further information contact Amanda Cleland acleland@adhb.govt.nz

Certificate of Attendance

Learning Outcomes will be tested through a pre and post test system and Nurses who complete the session and achieve the learning outcomes will be recognised with a certificate of achievement.
